

Why Use Compost?

High Quality Compost -
there is a difference!

Serious about food? Get
serious about the compost
you use!

Greater nutrient retention
over time =
More efficient delivery of
nutrients to your plants

Weed seeds and
pathogens are destroyed
during our process

Suitable for
Organic Production

Improves your soil's
cation exchange capacity

Improves soil and plant
resistance to pests and
diseases

Improves soil structure and
moisture management

Highfields
CENTER FOR
COMPOSTING

**Community
Supported
Compost**

2012

Calling all Gardeners, Farmers, and Landscapers!

You know the value of compost as a grower – We know the value of building our community's local food system.

Want to support local food scrap recycling, on-farm composting research and education, and ensure **HIGH QUALITY COMPOST** is available to you locally?

Become a grassroots community investor!

Consider joining the Highfields Community Supported Compost program – keep your dollars and your compost in the community, and support our efforts to build out our new composting facility.

Your CSC membership will:

- Contribute to the local economy
- Reduce greenhouse gas emissions
 - Support Highfields' on-farm composting research and education programs.

Nourish your gardens with **HIGH-QUALITY Compost** for years to come!

What is CSC?

How it works:

Like a CSA (Community Supported Agriculture) program, you purchase your compost shares up front and receive compost for 5 years.

CSC Structure:

There are 3 different subscription levels to choose from. Your CSC level will depend on how much compost you use in a given year. Level 1 will give you 1 cubic yard of compost every year for 5 years, Level 2 gives you 2 yards each year, and Level 3 gives you 3 yards each year.

Lock in this year's compost price!

Our compost prices fluctuate, but your CSC membership guarantees your compost share at the 2012 rate for all 5 years of your membership! CSC members also have the opportunity to pass along their annual savings to the Highfields Compost Access Fund which donates compost each year to schools and community gardens.

Guarantee your purchase during our Spring Sales Rush!

Your CSC membership automatically reserves compost for you, equal to the value of your membership. Each Spring you will be given the opportunity to reserve as much additional compost as you need at that year's prices.
